I have concerns about the phthalates section. Please see attached.

In a nutshell:

That's fine with me. Can you all just add whatever comments you have into this file and Kevin and I will coordinate sending it up. The file should be directly editable – it already includes my and Tala's comments.

Thx

Jeff, you have more comments than I...can you integrate mine into yours?

And, with yours this is truly an OCSP product, so can you coordinate this with Kevin from here to get this back by 1 pm?

I think this is fine in terms of the phthalate description but have asked Andy and Colin to have a quick look.

Now that I have read this through, ONLY TSCA is mentioned as a program for this effort.

I had a few editorial suggestions (attached).

Mark – does the TSCA piece comport with what you heard from the phthalate team?

Good morning all. Sorry for the delay in getting this to you. Given this proposal's level of complexity, not to mention that it came out of nowhere, I requested an extension from the Office of Budget. However, that request was denied. So at this point, we only have time for a red flag review (i.e. things you really can't live with). **Please provide comments by 1:00 PM today, August 18.** Thanks for all your efforts. And thanks to Maureen and Susan who did a really nice job pulling this together in a very short timeframe.
